THOMAS G. BLACK
SUPERVISORY PATENT EXAMINER
GROUP 2700

1. The following is an Examiner's Statement of Reasons for Allowance:

The prior art of record does not teach or fairly suggest a method of providing universal data analysis, measurement and control system (essentially directed to a software metric tool) as recited in the amended independent claims 1 and 15. The invention provides an improved software metric/measurement tool that provides indexing for disparate input data components originated from various sources (Applicants' Disclosure, Page 7; Amendment, Paper No. 4, Page 10, the last paragraph). In other words, the prior art of record does not teach or fairly suggest the combination of features such as "one hierarchical index ... generated under predefined formatting rules ... a description of each data set each data set including ... quantified description of each data set..." (claim 1, lines 6-10). The arguments by the Applicant with reference to the 35 U.S.C. 112 issue has also be considered. See Amendment, Paper No. 4.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hosain Alam whose telephone number is (703) 308-6662.
